

An application for drivers performing international transport

14.12.2018

Are you a professional driver performing international road transport? This app is for you!

Chief Inspectorate for Road Transport in cooperation with the Ministry of Foreign Affairs has prepared a mobile application on the mobile phone, which concerns the exercise of international transport.

Why is it worth having an app?

You will be able to consult issues related to road transport without using additional devices. You will conveniently contact the International Cooperation Department of the General Inspectorate of Road Transport or the appropriate consular office.

You will learn how to give first aid.

You will get quick and free access to general information on consular assistance - you will know when and for what help you can count abroad!

Try the "Driver abroad" application now and take advantage of modern solutions:
